Eggnog is selling hot chocolate at the market.  
Each hot chocolate costs \$5. Eggnog sold 20 cups.  
How much did he make today?

---

Eggnog is running out of ingredients for making hot chocolate.

He Needs to buy:

- cocoa: \$1600
- milk: \$3470
- whipped cream: \$894

Could you help Eggnog adding up all the cost of ingredients?

**BONUS:** adding \$555 for some sprinkle
